Organic Lavender Vera ~ France

This high elevation Lavender Vera is the crème of the crop when we are talking lavender essential oil. In this bottle may be the most sweet, soothing lavender that you have ever experienced to this point. Distilled from a professional artisan who optionally tests all his organic oils for pesticides/fertilizer residues ensuring another layer of purity.

Lavender is the swiss army knife of essential oils – beneficial for everything! Anti-bacterial, great for stress/relaxation, burns, bug-bites, inflammation, soothing skin. Great in blends, can be used in very low concentrations in food/beverages – start by trying 1 drop in 8-16 ounces of beverage/food that will mix well with lavender. 1-2 drops can be nice mixed over a chocolate bar or infused into vegan ice-cream. Try lavender essential oil infused into laundry detergent for a new-level of clean!

Hydration Martini ~ The perfect hydrating blend ~

Imagine hanging out in the desert dehydrated and looking for the perfect drink to wet your whistle. Hydration Martini is an alcohol-free Conscious Bartending concentrate designed to uplevel your drinks and to increase hydration levels.

Might we suggest 1 drop in 8-16 ounces of chilled club soda. Add a sprig of Rosemary, a splash of fresh lemon juice and a pinch of Himalayan salt. Perfection.

What suggestions might you have for the greatest non-alcoholic cocktail?

Ingredients: Organic essential oils of Rosemary Cineole & Litsea Cubeba.

Essential Oil Wizardry

Essential Oil Wizardry

Positive Transmission ~ Positive Transmission was formulated during brewing of sacred plant medicine on the Big Island Hawaii. Harmonizing high vibrational essences to elevate the consciousness. Inspired to infuse light into a person's field through it's ceremonial usage. Taste the vibration!

Positive Transmission is the third creation in the Ceremonial Creation series.

Ingredients: Organic OR Wildcrafted Essential Oils/CO2 Extracts of African Copal Bark (CO2), Cedar Atlas, Elemi, Frankincense (CO2), Myrrh (CO2), Tulsi (Holy Basil), White Sage infused in Organic Sugar Cane Alcohol.

Directions: 1 – 3 drops are potent and effective for ingestion. highly therapeutic → great to share with friends! Please do not ingest Eu-Phoria Drops if you are to operate a motor vehicle. These drops are not suggested for everyday use.

Docta's Notes: The third ceremonial blend in the series came through the inspiration of sacred tea. This blend infuses liquid light of divine vibration extracts through the compilation of woods, resins, bark and herbs. African Copal Bark, Cedar Atlas & Myrrh combine to produce a solid base. The tulsi, frankincense and white sage infuse to elevate and expand the blend to higher consciousness. Elemi works well at combining and potentiating the grounded and elevated essences. As the tea was brewing, the light came through this resonant portal called Positive Transmission.

When this formula was developed, the purpose and usage was initially unclear. ****Tincture**** was the solution when I felt and listened of this offering's larger purpose. Perfect as a concentrate for vaporization and for developing tinctures ~ when ingested, a person's higher self is called forward and the experience when call in more light and positive energy. Best use in conjunction with other Ceremonial Creations (Purity & Psychic Protection).
