## ~ Alchemy Subscription Package ~ Month of July

**Essential Oil of the Month: Cedar Atlas**  
**Wizard Alchemy Blend: Return To Grace**  
**Essential Oil Tincture: Self Organizing Principle**  
**Mister Spray / Magick Massage Oil: InVigor Spray**  
**Docta's Pick: Kava Euphoria**

### **Organic Cedar Atlas (Steam Distilled) ~ Morocco**

Cedar Atlas is a majestic essence which calms/centers the mind and body – very balancing, gentle masculine energy. Nurturing, great fragrance and great for balancing the skin (acne) making it more vivacious. Super helpful for dissolving warts applied topically. *Not to be used during pregnancy!*

Enjoy wearing cedar oil undiluted on the body as a botanical perfume for men/women (be aware if you have sensitive skin). Several drops of cedar oil creates a centering bathing experience in a warm bath – try mixing with CO2 extracted Frankincense or lavender! Wonderful massaged into the feet to relax the body and embody clarity of being. Can mix into coconut oil for a great skin tonic.

### **Return To Grace (Botanical Perfume)**

My mentor Will Lapaz (formerly owned Eden Botanicals) believes this is my most well balanced, elegant botanical perfume. This one will touch your heart, inspired for my love to my previous beloved Kiana as a parting gift. Sweet, grounded, warm and complete is the fragrance – a divine treat!

Designed to enhance stabilization during transitions, open & expand the heart while elevating the mood. Much intention in this one! This formula may be worn on the skin or clothing as a botanical perfume. Be aware, this blend may stain clothing.

**Ingredients: Steam Distilled Turkish Rose Otto, Organic Moroccan Cedar Atlas, Israeli Blood Orange infused into Fractionated Coconut Oil**

## Self Organizing Principle (SOP) – Quantum Sunlight Tincture

This is the first time I am offering Quantum Sunlight Tinctures outside of the festival environment. In fact, this is a big deal for me to be sharing this technology in a more public/private forum. A friend in Santa Fe, NM has developed a process utilizing sunlight to vibrationally tune alcohol to a variety of different medicinal tools. Mainstream consciousness is not quite ready to receive this technology... Here is the information with this accompanying tincture:

Self-Organizing Principle is a medicinal, non-entheogenic tincture designed to clear unhelpful imprints and replace them with your authentic blueprints. It is calming, sobering and grounding, clears that which does not serve at an epigenetic level. Self-Organizing Principle can be greatly helpful for reducing toxicity and shock. Interesting restructuring properties.

Standard dosage is 1-4 drops under the tongue. Self-Organizing Principle can added to water or beverages of any kind. Adding 5-10 drops to a glass of water, cup of coffee or alcohol of any kind can be greatly helpful to stabilize the energy permeating them. For best resulting pair with Bliss Package. This is extremely effective in restaurants for the purposes of energetically structuring liquids such that they cannot be corrupted, outside of the influence of a master.\*

**Ingredients: Organic Sugar Cane Alcohol, Water, Trace Minerals. Vibrationally tuned using sunlight in Santa Fe, New Mexico. Note: not homeopathic in nature**

## InVigor Mist (Magick Mister)

Classic InVigor formula infused into a spray mister for regular enjoyment. Great to uplift a room, use during study sessions, in the morning as a wake-up ritual. This is great to share in outdoor public venues, with permission. Close your eyes during spray, may irritate if left open and sprayed in eyes (will not permanently damage).

**Ingredients: Organic Essences of: Caraway (CO2), Cardamom (CO2), Sweet Basil linalol, Peppermint, Wildcrafted Frankincense (CO2), Silver Fir, Rosemary Cineole/Verbenone, infused into vortexed spring water using the “Vitalizer Plus”, vibrationally tuned with Self Organizing Principle & Bliss Package.**

## Kava Euphoria (Euphoria Tincture)

Kava Euphoria is a combination of my Euphoria Drops, CO2 extracted Kava Kava infused into Fractionated Coconut Oil. One dropperful is a pleasant alcohol substitute – deeply relaxing, mentally stimulating and moderately euphoric. This blend may stain clothing. ***Do not drive during usage.***

**Ingredients: CO2 Extracted Kava Kava, Frankincense, Myrrh, Black Pepper, Pink Pepper, Tulsi, Bitter Orange, Blood Orange, Litsea Cubeba, Ylang-Ylang, Rose-Geranium into Fractionated Coconut Oil**

**\*Please Be Advised: These products are not intended to cure, heal, diagnose or treat any disease.**
