

Essential Oil Wizardry

~ Alchemy Subscription Package ~ Month of May (2016)

Wizard Alchemy Blend: Sacred Ritual

Essential Oil of the Month: Coconut Pulp (CO2)

Essential Oil Tincture: Kava Euphoria

Magick Mister / Massage: Tiki's Massage

Sacred Ritual (Ceremonial Creation)

Sacred Ritual ~ Divine Expression ~ came through as a powerful gender balancing masculine fragrance that has energetic properties to cleanse an environment. Invoking calm, peace, radiant clarity, Sacred Ritual offers a delightful offering to an altar set-up and added to one's daily meditation practice. Enjoy wearing on wrist points, third eye, around the body (auric field), on the body. Excellent to dynamic diffuse around the room (finger snap method) to shift energy from heavy to more LIGHT.

Enhancements: Charged with orgonite & vibrationally tuned in a 432 hz Crystal Bowl.

Ingredients: Organic Cedar Atlas (Morocco), Wildcrafted CO2 Extracts of Frankincense Carteri / Serrata (Somalia / India), Organic Lime Distilled (Sri Lanka), Organic CO2 Nutmeg (Indonesia), Organic Peppermint (India), Organic Rosemary (Tunisia), Wildcrafted Vetiver (Haiti) infused into Fractionated Coconut Oil enhanced with Dead Sea Salts.

Organic Coconut Pulp (CO2 Select Extract) ~ Sri Lanka

Imagine a teaspoon of the potency of Coconut oil infused into 2-5 drops of this extract! Absolutely delectable, a great nutritious oil that blends phenomenally into personal lotions, salves. Moisturizes the skin very well with a beautiful consistency. Can be added into foods/desserts in small amounts for a mesmerizing flavor. Works well as an ingredient for chap stick or lubricant – what will you do with it?

Ingredients: Organic CO2 Extract of Coconut Pulp (*Cocos nucifera*) from Sri Lanka.

Kava Euphoria (Essential Oil Tincture)

Kava Euphoria is a popular recreational tincture which is quite balanced between it's mood/energy stimulating properties and the levels of euphoria that it provides it's user. This formula is incredibly synergized with kava and 11 different essential oils for flavor and mind-altering effects. I find this formula to be mood elevating, mentally focusing, body relaxing and moderately euphoric. Kava works on the same receptor sites as alcohol (GABA agonist) and seems to have clearer effects, less of a hangover when taken appropriately and not abused.

Start with ½-1 dropperful, under the tongue. This formula should not be used before operating motor vehicles or if you have any known liver conditions. Please don't take this tincture every day – when I consume, I usually use max at 2-3x week and drink plenty of fluids.

Enhancements: Charged with orgonite & vibrationally tuned in a 432 hz Crystal Bowl.

Ingredients: CO2 Extracted Kava Kava (Vanuatu), Organic Bitter Orange (Egypt), Organic Black Pepper (Sri Lanka), Organic Blood Orange (Italy), Organic Clary Sage (France), Wildcrafted CO2 Frankincense Carteri (Somalia), Organic Geranium (S. Africa), Organic Litsea Cubeba (Vietnam), Organic CO2 Myrrh (Somalia), Wildcrafted Pink Pepper (Madagascar), Wildcrafted Tulsi (India), Organic Ylang Ylang Complete (Madagascar) infused into Fractionated Coconut Oil

Tiki's Flame Massage Oil (Magick Massage)

Inspiration has come to fruition from the fun feedback of Tiki's Flame several months ago to offer this blend as a Magick Massage Oil. This blend brings together sacred resins, woods, flowers, fruits and herbs to bring a sweet, gentle warming, uplifting and stimulating oil. Very healing for emotional trauma, and playful/inviting for love making. Tiki's intention for this sensuous oil: Clarity, Love & Excitement!

Use liberally, just not in direct sunlight (may cause severe sunburn). Use around the heart for emotional clearing of trauma.

Enhancements: Charged with orgonite & vibrationally tuned in a 432 hz Crystal Bowl.

Ingredients: Organic CO2 Myrrh (Somalia), Wildcrafted Palo Santo (Ecuador), Wildcrafted White Sage infused into Fractionated Coconut Oil.

Docta's Picks: Coffee (CO2) & Cacao Absolute

Cacao Absolute (Grape Alcohol Extract) ~ France
Organic Coffee (CO2 Total Extract) ~ Italy

Two delectable treats together for one mega offering this month!

Cacao Absolute is an ethanol extraction from the cacao beans providing the raw essence in the most beautiful way. This potent concentrate has poor solubility in oil though can be made into an infusion and then filtered with very little product used (ie. 10-30% is a rich aroma). This one is for the flavor and the fragrance – would love to hear how you use this rich decadence!

Our CO2 Coffee comes from Italy and is an uplifting extract that is explosive in flavor. This extract is quite lively when rubbed directly into the skin – warming, soothing and vitalizing to the face, consider adding this into your own facial cream. Use this extract when cleansing the fragrant pallet as it seems to reset your sense of sense. Infused into your home diffuser, this extract is sure to please!

Ingredients: Grape Alcohol Extracted Cacao Absolute from France & Organic CO2 Extract of Coffee (*Coffea arabica*) Wildcrafted Frankincense (*Boswellia carterii*) from Somalia.
