

Essential Oil Wizardry

## ~ Alchemy Subscription Package ~ Month of December 2016

**Wizard Alchemy Blend: Purity**

**Essential Oil of the Month: Oregano**

**Essential Oil Tincture: Release**

**Exquisite Botanical Perfume: Frank, Myrrh & Gold**

### **Purity (Ceremonial Blend)**

Purity is a precious ceremonial blend that was inspired by my mentor Ravi Das during my travels living in Hawaii. The intention was to create a potent set of ceremonial blends to protect during sacred rituals (ie. Ayahuasca, prayer circles, temple). This is a very powerful ceremonial blend that was formulated to purify the energy of an environment. A combination of the sacred plants: myrrh resin, white sage herb, palo santo wood aligned in perfect unity.

This sacred formulation has been enhanced with ormus into the carrier oil to potentiate the powerful cleansing properties. My favorite method of use with Purity is to place a few drops into the fingertips and snap/wave my hands around the room using the process I call “*dynamic diffusion*”. Try applying purity on to the third eye as a sacred anointing blend. Some people swear by applying this oil as a deodorant (personally sometimes it irritates my skin) daily.

**Ingredients: Organic CO2 Extracted Myrrh (Somalia), Wildharvested Palo Santo (Ecuador), Wildharvested White Sage (San Luis Obispo) infused into Ormus Infused Fractionated Coconut Oil**

### **Organic Oregano heracleoticum (Steam Distilled) ~ France**

This is a very special organic distillation from some talented distillers in France of my favorite varietal of Oregano ~ species *heracleoticum*. Oregano *heracleoticum* is a very balanced, slightly milder than a potent *vulgare/compactum* species with a relatively equally therapeutic anti-microbial profile. Oregano is high in phenol carvacrol which has demonstrated potent anti-microbial properties including the dreaded MRSA. Oregano also has anti-spasmodic, anti-fungal, mood elevating properties and has been noted to have some anti-cancer properties. I've personally used this varietal inhaled in a vaporizer to clear out bacterial pneumonia over 48-72 hour period(s).

**Ingredients: Organic, Steam Distilled Oregano heracleoticum from France**

Essential Oil Wizardry

## Organic Oregano heracleoticum (Steam Distilled) ~ France

Note that oregano applied topically can be quite caustic to the skin, however Oregano heracleoticum is quite more mild than other varieties. If applied topically, start with a 5% concentration for topical use. My favorite uses include vaporized or steamed (CLOSE YOUR EYES) to aid with infection. I don't suggest internal ingestion but for those who do, try infusing 1 drop into a carrier oil and capsule. Limit to 7 days usage per therapeutic use.

## Release (Essential Oil Tincture)

A client requested a solution to aid with addictive tendencies and to break patterns. Release was birthed as a potential support system to help shift energy into more intentional choices, elevate the mood and anchor relief from addictive patterning. Powered by intuition and some primary literature for the guided purpose, this potent package of herbs really supports a healthy body while elevating the mood in a flavorful burst.

Enjoy sharing this tincture with friends and use 1-2 drops by mouth, 1-3x / day or as needed. Use with intention as a supplemental support for replacing behaviors of the past.

**Ingredients: Organic Black Pepper (Madagascar), Organic Black Pine (France), Organic Cinnamon Bark (Sri-Lanka), Wildharvest Elemi (Philippines), Grapefruit Essence (S. Africa), Organic Nutmeg (Sri-Lanka), Organic Rose-Geranium (S. Africa) infused into Organic Sugar Cane Alcohol**

## Frank, Myrrh & Gold (Exquisite Botanical Perfume)

This inspiration was birthed through our team member Alicia and co-blended to a very high frequency blend. We allowed each of our highest quality batches for 3 frankincense, 2 myrrh and a very special oil of gold extracted by an alchemist. This blend is deeply grounding, multi-dimensionally expanding and elevates prayer to a powerful level. Balanced so delicately and profoundly, Frankincense, Myrrh and Gold were considered to be the three gifts from the wise men based on the bible.

The synergy of this blend is insanely expansive and we are honoured to share the finest quality botanical extracts on the planet with our monthly members! Simply roll onto the body as necessary for an exquisite botanical fragrance to elevate those around you or rub into the bottom of the feet to clear and heighten your vibration.

**Ingredients: Wildharvested "Royal" Frankincense Sacra (Oman), Wildharvested CO2 Extracted Frankincense Carterii (Somalia), Wildharvested CO2 Extracted Frankincense Serrata (India), Organic CO2 Extracted Myrrh (Somalia), Organic "Sandalwood" Myrrh (Somalia), Oil of Gold extract infused in Organic Honey Spirits.**

**INFINITE GRATITUDE MONTH ~ Our team is so grateful to support you!!**

**<3 Doc**
