ESSENTIAL OIL WIZARDRY

~ Alchemy Subscription Package ~ Month of June 2017

Wizard Alchemy Blend: True Bliss
Essential Oil of the Month: Fennel
Essential Oil Tincture: Cellular Restoration
Exquisite Botanical Perfume: Love Potion

True Bliss (Botanical Perfume)

Inspired by my friend Kryn Dykema whom interned with me at the lab December 2015. Kryn is a truly talented perfumer capturing various notes weaving a divine symphony. Beginning with Black Spruce, Frankincense, Styrax liquidambar (a true, natural amber extract) and spearmint, a nice bouquet was developed using uplifting base notes that offered a level of balanced sweetness. With our combined skill set, we added Fresh Ginger to add a spicy dimension and lifted the fragrance using Red Mandarin.

Such a tribute to the beauty of collaboration, True Bliss is one of our first Partner Alchemy blends and a constant reminder of gratitude to Kryn Dykema. Thank you Kryn for all your support and inspiration!

Ingredients: Organic Black Spruce (Canada), Wildcrafted CO2 Extracted Frankincense Carterii (Somalia), Fresh Ginger (Indonesia), Styrax liquidambar (Honduras), Organic Red Mandarin, Organic Spearmint infused into Fractionated Coconut Oil enhanced with monoatomic minerals

Fennel (Sweet), Steam Distilled (*Foeniculum vulgare*) ~ France

Fennel is a powerful extract produced from the fennel seeds. Powerful as a digestive aid for reducing bloating, flatulence, and upset stomach, fennel can be used topically or internally at appropriate amounts when needed. Also known to for it's hormonal balancing effects, fennel can be supportive for women during menstruation and is part of our Moon Cycle formulation.

Pure fennel extract can be irritating to the skin and is suggested to infuse into a carrier oil (ie. MCT) before using topically, great rubbed over the belly. During upset stomach or food poisoning, can use 1 drop in 8 -16 ounces of water and repeat as needed until stomach settles. This one works well and fast!

WARNING: Not for use in pregnancy, may cause abortion to the fetus.

Ingredients: Organic Steam Distilled Fennel (*Foeniculum vulgare*) from France.

Cellular Restore (Essential Oil Tincture)

Cellular Restore was birthed to support individuals healing from cancer. After doing research on different essential oil constituents which have supportive anti-tumor, anti-proliferative properties on various cancer types while stimulating the immune system. This is a powerful formula which can aid in prevention and also support as an adjunct to primary cancer treatment – this is NOT recommended for sole use as a cancer treatment.

The Ormus enhanced MCT helps to enhance the potency of this formula – when taken, the product feels powerful, cleanses the mind and simulates awareness. I've enjoyed ¼ dropper – ½ dropper once or twice a day, taken sublingually. Very intriguing formula!

Ingredients: Organic CO2 Extracted Black Cumin (India), Wildcrafted CO2 Extracted Frankincense Serrata (India), Organic Lemon (S. Africa), Organic Lemongrass (S. Africa), Organic CO2 Extracted Myrrh (Somalia), Organic Niaouli (Madagascar), Organic Peppermint (India), Organic Rose-Geranium (S. Africa), Organic Thyme linalol (France), Organic CO2 Extracted Turmeric (Vietnam) infused into Ormus Enhanced Fractionated Coconut Oil (MCT)

Love Potion (Exquisite Botanical Perfume)

Love Potion is one of the first botanical perfumes formulated by Dr. Nick which began as a spray mister while living in Hawaii. This finely balanced floral trinity is phenomenal for balancing the nervous system during rapid fire times – very heart-opening, aids in forgiveness and elevating the mood. The fragrance profile is rich, regal and soothing containing mostly mid – top floral notes.

My experience is a generous rose bouquet which opens to a delicate and light orange blossom, both sweet and golden, ending with a sweet yet spicy rose-geranium note in an inspiring trifecta. The combination infused into the Organic Artisan Distilled Honey Spirits allows the different layers to unfold for hours demonstrating different floral personalities with time. Open your heart and express your passion with Love Potion!

Ingredients: Bulgarian Rose Absolute (Bulgaria), Egyptian Neroli (Orange Blossom Flowers), South Africa Rose Geranium infused into Organic Artisan Distilled Honey Spirits.
